So you wanna do STEMstuff?

A presentation on planning for the future

Pick a Program (Degree, Diploma, Course)

- Create a PowerPoint presentation regarding a STEM degree, diploma, or program you are interested in. Things to include:

- Entrance requirements

- Program length

- Focus of program / What you learn

- Where are graduates working?

- Job outlook / Type of Job / Salary

- Cost of Degree

- Typical day of someone employed with this degree

- Future education (upgrade / dip –> deg / Graduate)

- Testimonials… It is probably best to be super specific… For example: "UBC Software Engineering" and NOT "Software Engineer"
