

Mine Profile Presentation

Pick your mine (or mineral)

- Pick a mine to create a presentation on (Canadian if possible)
- Make a profile of this mine. Pretend you are trying to sell it.
- Things to consider
 - What do they mine there (General intro, what it's used for, how much, cost, depth, challenges, how did this mineral form there, etc.)
 - How long / how much longer will they be mining
 - Cost to build the mine / Employee Pay / Type of Jobs / Any availability
 - How they mine it
 - Who found it and when
 - Environment/Humanitarian/Government Issues (Any deaths?)
 - Every mine is unique, and this is just to get you going. Present what you learn along the way!!
