

Early microscope

In this activity you will practice using a dissecting microscope and work on your scientific drawing and labelling skills.

Materials:

- Dissecting Microscope
- Petri Dish
- Sharp pencil and good eraser
- Objects to examine

Marking (1 point each):

1. Title
2. Drawing
3. Labels
4. Magnification
5. Date and Time

Pick any three things to examine under the dissecting microscope. Make accurate scientific drawings with labels of each thing/object.
